

Binoculars
Water Proof Hunter

Not only the attractive design, but also the pricing of these models is extremely attractive. The compact and handy bodies enable them to be the perfect companion on just about any outdoor activity.

The multi-coated optics, water proofing, BAK4 Prisms, and solid mechanics enable a true colour picture replication. The 8x42 and 10x42 Binoculars are ideal for hiking and hunting.

All models have dioptre compensation and rubber eyepieces for spectacle wearers as standard. Roof prism binoculars also have a tripod thread.
